

The Bulletin

Norwich, Thursday, Feb. 10, 1931.

THE WEATHER.

A disturbance which was central over South Louisiana Wednesday night will move northeastward attended by general precipitation mostly in the form of rain in the state east of the Mississippi river within the next 24 to 36 hours.

The temperature will continue above normal in all sections.

Winds Off Atlantic Coast.
North of Sandy Hook—Moderate to fresh with rain and overcast weather.

Sandy Hook to Hatteras—Moderate north to east winds and overcast weather. Thursday, probably rain over south portion.

Forecast.
South New England—Cloudy Thursday; Friday rain or snow, not much change in temperature.

East New York—Cloudy Thursday; Friday, rain on the coast and rain or snow in interior, not much change in temperature.

Observations in Norwich.
The Bulletin's observations show the following records reported from changes in temperature and barometric readings Wednesday:

	Ther. Bar.
7 a. m.	24 29.10
12 m.	24 29.00
6 p. m.	24 28.90
Highest 24, lowest 24.	

Predictions for Wednesday: Rain or snow. Wednesday's weather: Light snow and sleet, southerly wind.

SUN, MOON AND TIDES.

	Sun	Moon
Rises. Sets. (Standard Time).		

Day.	a. m.	p. m.	a. m.	p. m.
7	6:54	5:10	9:35	6:10
8	6:52	5:12	10:11	6:10
9	6:50	5:14	10:48	6:10
10	6:49	5:16	11:24	6:07
11	6:49	5:18	12:02	6:08
12	6:49	5:20	12:42	6:10
13	6:47	5:18	1:27	6:13

Six hours after high water it is low water, which is followed by flood tide.

TAFTVILLE

A number of the younger people attended the Mardi Gras in Norwich, Tuesday night, and also the dance at the Olympic hall, returning on the latter car.

Presiding the Mardi Gras given Tuesday night, in parish hall, by the old St. Jean de Baptiste society, a street parade was held, starting from Front street and marching up to hall. The line of march consisted of about 75 costumed jockeys, headed by the Baltic band, with automobile following the music. There was a broken up at the hall where the marchers started the fun for the evening.

The hall was decorated in a very attractive manner with booths distributed around. The evening's program opened with a grand march. The Sacred Heart orchestra furnished the music. There was an attendance of about 500 people.

BALTIC

On Tuesday the students of the Academy celebrated an enjoyable holiday, in honor of Rev. Father Francis, who had formal reception was held at which the students sang in an excellent manner a festive song composed for the occasion.

An address was delivered by Miss M. Fagan, who in the name of the students congratulated the Reverend Father and thanked her for his kind and pleasant visit. She has so generously bestowed upon the students who are fortunate enough to be under her wise and motherly care.

Several students added to the program of the reception by violin and piano selections. Among them being the Misses Coogan, Harteau, Somers, Moore and Andrews. The students of the academy presented Father Francis many beautiful and substantial gifts. During the day several hours were spent out of doors, taking in the fresh air and the scene which the Taftville evening snow storm had made.

Joseph H. Buteau is confined to his home with rheumatism.

A. W. O'Hara of Melrose, Mass., was a visitor in Baltic Wednesday.

Alex. Neault, recently discharged from the army, is visiting his mother on Railroad street.

Mr. A. Jodoin of Danielson is visiting his father, Seismann R. J. Jodoin.

Many from Taftville will be at the masquerade dance in Taftville Tuesday.

ONE QUARTER OF FIRES

WERE WHOLLY PREVENTABLE.

The national board of fire underwriters through its actuarial bureau has just completed a five-year analysis of the fire losses for Connecticut. These figures, now for the first time made public, reveal a startling way in which the fire paid by the state for public ignorance and carelessness in the matter of fire hazard. They are drawn from an exhaustive study of approximately 21,949 fires, which actually reported upon the insurance companies, and to the figures presented it is estimated that 25 per cent. should be added to cover fires not reported to the actuarial bureau.

The causes are classified into three groups of which twelve are listed as strictly preventable. The total of \$1,482,215 or 23.6 per cent. of the whole, nine are designated as preventable and total \$5,092,763 or 33.6 per cent. of the whole, and beyond that, the figures show known causes totaling \$5,727,121 or 38.6 per cent. These unknown causes may be considered as probably largely preventable also, if known, they would be distributed among the other causes.

Provisional Federal Officers.

Provisional officers in the Connecticut National Guard are made possible under a general order issued from the adjutant general's office Monday. With each National Guard company only three officers can have federal commissions, the captain and second lieutenants, with the first lieutenant and the first sergeant.

Agency board is allowing military emergency to be formed in cities and towns it is providing extra drill officers, with state authority, to be called upon. Provisional officers will, in most cases, be made permanent when platoons are enlarged to companies.

Sparrow hawks will sometimes attack young chickens, but never molest large poultry.

Cured His RUPTURE

I was badly ruptured while lifting a trunk several years ago. Doctors said my only hope of cure was an operation. I refused to do so. Finally I got hold of something that quickly and completely cured me. Years have passed and the rupture has never returned. Although I am doing hard work as a carpenter, there was no operation, no last time no trouble. I have nothing to sell, but will give full information about how you may find a complete cure without operation. If you write to me, Eugene M. Pullen, Carpenter, 4555 Marcella Avenue, Manhattan, N. Y., better out out this notice and show it to any others who are ruptured—you may save a life or at least stop the misery of rupture and the worry and danger of an operation.
